

Hello **Blue** Class families, I hope everyone is still doing Ok and not driving each

crazy! I hope you enjoyed the Friday bank holiday with no schoolwork!

It was lovely to catch up with everyone, over last week or so on the phone; once the 'tech' was working, and to talk to some of the pupils too.

By now everyone should have received their child's updated 'home-learning' IEP in the post, with a Literacy, Numeracy and Health & Well-Being target as well as some general 'things your child enjoys' information and some subject specific targets from the subject specialists.

I hope that your child will be able to work on these targets across the month of May.

At the end of the month, we will discuss how they have got on and update targets, as needed.

As usual, don't worry if your child is not keen to engage, just do what you can and focus on continuing to stay safe and happy in whatever way suits them and you.

Have a great week, whatever you get up to** together

All the best, Noelle & Blue Team

**some ideas below!!

*This week's class activity: *Read over your child's IEP and choose one target or activity that they are keen on and maybe one that is more of a challenge. (feel free to do more, of course! 😊)*

Watch a video from the school website and join in where possible

Art Activity

This week's art activity is as easy as **ABC!**

Create words and amazing part work using everyday objects found around the house.

Check out the details in the Art Specialist Section online. Happy hunting and creating!

Hoping you are all keeping well

Best wishes

Aileen Mullen

Music Activity

Create your own instruments and create a band. Try this using anything that you have in the house such as plastic tubs filled with rice, lentils, or pasta. Play your homemade instruments with your favourite songs. Also try to play them with Braidburn Bash and Bang band video on school website.

Singing. Videos of familiar songs covered in class shared on school website.

PE Activity

Making different shapes with our bodies: Make different shapes with your body and get your child to copy them. Try to stay still for at least 3 seconds.

Examples of shapes: Star shape, seated with arms out to the side or stretched up, plank, lying on back with feet and arms up straight, etc. You could incorporate this into a game of musical statues if you need the music to cue the start and end of the balance. Have fun and get creative with your shapes!
