Art

This weeks art activity is about having fun with paper, making simple beads for some noisy fun, making beads for simple bracelets and folding paper to make a concertina bracelet and snake!

P.E.

Here is this weeks task:

Continuing with the theme of fitness this weeks task looks at understanding what happens to your body when you exercise. Do an activity which will enable your child to raise their heart rate. Get them to feel their chest, and if possible their pulse at their wrist or neck and describe what they feel. You could get them to compare with a family member who hasn't been exercising? Changes to point out and notice: Heart beating faster, breathing faster/ feeling out of breath, feeling hot/sweating. Try to have a conversation about these feelings being good and ok. You could even discuss the reasons behind these physiological changes if that's appropriate for your child.

Thanks,
Amy

Hi everyone. I hope you are all having fun and learning at home. I've been working on some sensory story activities, and there are lots on the website from the last few weeks, including The Tiger Who Came To Tea, The Very Hungry Caterpillar and lots more! This week, if you're a fan of Harry Potter or Charlie and the Chocolate Factory, there's some fun activities for you to try. How about becoming a wizard and creating your own potions! Head over to the VI and Sensory Learners section in the Home Learning section of the website to find the activities. Wizards and Muggles welcome! Have fun. 😊
