P.E.

- Try a short fitness circuit: Choose 5 exercises (Rolling wrists, turning head side to side, stretching arms up above head, reaching ear to shoulder, touching toes etc), do each exercise for 30s and rest for 30s. If this is easy try and do the whole circuit a few times through.
- You could also do this with a dice to make it more unpredictable: For each of you 5 exercises roll the dice, the number rolled is the number of repetitions you do of the exercise.
