

Hello Blue Class boys; **Cosmos, Jaxon, Logan & Neil** and girls: **Eilish, Julia, Maja & Maria**

I hope you all got a chance to go onto the school website or Facebook page last week to watch, and join with, Blue Team grown-ups having fun with Baby Shark! If not, the link is here:

<https://braidburnedinburgh.com/2020/06/01/daily-video-monday-1st-june/>

You might see some real sharks, or make some of your own if you do this week's class activity.

We are all still missing you and Braidburn School and we're really looking forward to things, slowly, getting back to normal again after the summer.

Stay safe everyone, Noelle & Blue Team

This week's class activity: As part of our water activity why not think about different animals that live in the sea. If you follow this link you can see a wide range of beautiful and interesting animals that live under the sea in a coral reef:

https://www.youtube.com/watch?time_continue=16&v=J2BKd5e15Jc&feature=emb_logo

If you want to find out about animals that live in the sea in Scotland, you could watch this - https://www.youtube.com/watch?time_continue=258&v=tw75iXY4HyE&feature=emb_logo

The focus is otters, but it does show other creatures that live in Scottish seas.

If you like, you could try and make your own under-sea diorama in an old cardboard box or maybe in a jar like in the pictures on the left. You could use shells and sand that you have collected, or make creatures out of paper, card or tissue. Maybe you could cut out pictures of different creatures from magazines or printouts to use. Whatever you do, Have fun!

VI department activity:

Hi Everyone, this week there are some sensory fairy tales for you to try. 🏰 🧑🏻 There is a link in the document to a You Tube channel, with short animated fairy tales, so you don't need to remember the stories! Also, one of the stories is based on Disney's *Tangled* so you can explore some sensory activities while having a chilled-out movie afternoon. Head over to the VI home learning section on the website and look for the fairy tales document. <https://braidburnedinburgh.com/home-learning-resources/subject-specialists/visually-impaired-and-sensory-learners/>

Have fun. 😊 **Julie Malcolm** VI Support Teacher

Art Activity

This week the art activity is all about bringing the outdoors indoors!

<https://braidburnedinburgh.com/home-learning-resources/subject-specialists/art-ideas-for-home/>

(Easy) Feel the different textures and smell the lovely smells.

(Intermediate/Challenging)

Make fun pictures with leaves, flowers, pebbles, and twigs.

Send a photo of your garden person to someone to brighten up their day.

Have fun, Aileen

Music Activity

Videos of songs covered in class on school website.

<https://braidburnedinburgh.com/home-learning-resources/subject-specialists/music-ideas-and-videos/>

Try a new song -

Old MacDonald Had a Farm.

Thanks,

Timmie

PE Activity

This week's PE task is to **create an obstacle course.**

Here are some ideas:

* Use cushions on the floor as stepping-stones.

*Bubble wrap or newspaper with cornflakes in it (sealed to stop it spilling out) to wheel a chair, walk or roll over.

*Tape or chalk a line on the floor and try to follow it.

*Use water bottles as markers to slalom around.

Be as creative as you can, but most of all have fun!

Thanks, Amy
