

My weekly message:

Hello Clyde Class!

I hope you are all enjoying your fun packs! Please make the most of these resources. Have you enjoyed the new video I posted? There were a lot of differences from the previous one.

Not long to the holidays. Please continue to stay safe, keep washing your hands and remember to social distance when you see people.

Have a lovely holiday and keep smiling!

Shazia (Mrs. Hussnain)

Circle Time: Daily

Ask different family members:

"How do you feel today?"

What day is it today?

Sing days of the week and do all the signs if you can:

<https://www.youtube.com/watch?v=oKqAblcwFOA>

What month is it?

Signalong and Communication

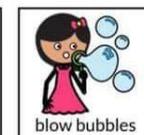

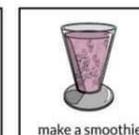

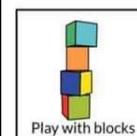

You will find the song "Dance Monkey" on the Clyde webpage. Please click on it.

Can you learn the signs? Give it a go!

News Discussion (*this is a repeat task every week*)

Watch and discuss children's Newsround reports.

Literacy

- Social distancing to keep yourself safe

And

- Washing your hands properly

- 2 large baking potatoes
 - 1 tsp olive oil
 - pinch of salt • butter
 - 2 sheets of kitchen roll
 - 1 microwave-safe plate
1. Wash the baking potatoes and prick the skins all over with a fork, creating lots of little holes for steam to escape from.
 2. Lay kitchen roll on a microwave-safe plate, put potatoes on it and pop another sheet of kitchen roll on top.
 3. Microwave for 4 mins, then take them out and turn the potatoes over - careful, they will be hot.
 4. Re-cover with the kitchen roll and cook for another 4 mins, then turn again.
 5. Keep cooking in 1-2 min bursts until they feel soft all the way through and the skins are wrinkled. Take them out and leave to cool.
 6. Split the potatoes open and add the butter. Serve with your favourite toppings.

For crispy skin you could also...Heat oven to 220C/200C fan/gas 7. When potatoes are cool enough to handle, rub skins all over with olive oil

http://www.printablee.com/post_printable-blank-100-grid-chart_104492/

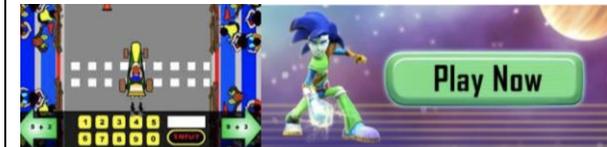

Starting with the number 4 can you colour every 4th number in green? What number comes next?

Do the squares have a pattern?

Cool Maths Games!

<https://www.coolmathgames.com/>

Click on the link and choose a fun maths game or games to play.

How many games have you played?

and sprinkle with sea salt. Put them in the oven for 10-15 mins or until the skins start to crisp.

Try making microwave mashed potato...
Microwaving potatoes whole is also a really good way to maximise the flavour of mashed potato. Once they're cooked, leave them to cool then peel away the skin then mash the flesh with butter, milk and a little grated cheese if you like, then microwave to heat through.

Maths

Home Tuckshop/Coffee Shop:

Continue with your home Tuckshop or Coffee shop.

Take turns being the customer or shop assistant.

Skills to focus on:

- Communication

Science

How to make a Volcano

Materials:

10 ml of washing-up liquid

Movie Night

Prepare a movie night at home!

Can you help prepare a movie night at home this week?

Think about what everyone would like to watch. Maybe you can vote on the best thing to watch?

What snacks will you make to eat during the movie?

<ul style="list-style-type: none">Counting coins	<p>100 ml of cold water 400 ml of white vinegar Food colouring Baking soda slurry (fill a cup about $\frac{1}{2}$ with baking soda, then fill the rest of the way with water) Empty 2 litre juice bottle</p> <p>Instructions:</p> <p>NOTE: This should be done outside due to the mess.</p> <p>Combine the vinegar, water, washing-up liquid and 2 drops of food colouring into the empty soda bottle. Use a spoon to mix the baking soda slurry until it is all a liquid. Eruption time! ... Pour the baking soda slurry into the soda bottle quickly and step back!</p> <p>How it Works:</p> <p>A chemical reaction between vinegar and baking soda creates a gas called carbon dioxide. Carbon dioxide is the same type of gas used to make the carbonation in sodas. What happens if you shake up a soda? The gas gets very excited and tries to spread out. There is not enough room</p>	<p>Perhaps you could make a poster to advertise the movie.</p> <p>Make tickets to collect before the show.</p> <p>Enjoy the movie!</p>
--	--	--

in the bottle for the gas to spread out so it leaves through the opening very quickly, causing an eruption!

Extra Experiments:

1. Does the amount of vinegar change the eruption?
2. Does the amount of water change the eruption?
3. Does the amount of baking soda change the eruption?

H.E.

Check the recipe on the website.

<https://braidburnedinburgh.com/home-learning-resources/subject-specialists/home-economics/>

P.E.

The final PE task of the term is a scavenger hunt. This can be done in lots of different ways and either outside or indoors but here are some ideas:

- Have a list of items that can be found either outside or in your house. Using this list go out and collect all the items. 10 points per item!
- The list could be written or using pictures or symbols to work on literacy.
- Instead of collecting items you could go out and take pictures of different local landmarks.
- Maybe you could even create a map together?
- Have fun!

Thanks,
Amy

Art Activity

This week's art activity teaches you different ways to use flowers and leaves to decorate pebbles, and make cards, bookmarks and framed pictures.

Best wishes
Aileen

V.I.

Hi Everyone.

This week's VI and Sensory home learning is the second week of Outdoor and Summer sensory play ideas. ☺ Head to the VI and Sensory Learners section on the website to try them out. This week there is some outdoor water play to try, you can make some soap foam to explore, there's an outdoor We're Going on a Bear Hunt story, and also for days when the weather isn't so good, there's an indoor scavenger hunt. ☺

Have fun everyone. ☺

Julie Malcolm
