

## Art Activity

**This week's activity is all about having fun with spirals.**

We will be inspired by the artist Richard Long. He often uses nature in his art.

This piece of artwork was made using mud and one of his fingers! I think it looks like a shell, what do you think it looks like?

Here are some ideas you could try.

Can you create your own spiral art using things you find outside or around the house?

Can you draw a spiral in the snow with a stick?

How about a spiral of stones?

How about a spiral of pasta?

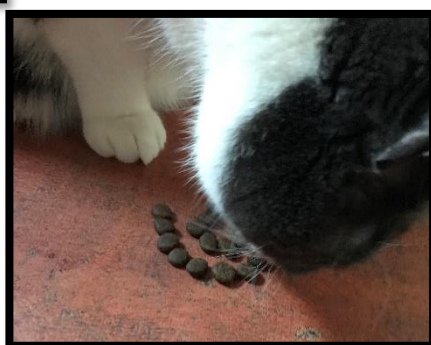

A spiral of buttons looks very pretty!

A spiral of Christmas tree decorations if you are still to put them away!

**OH DEAR!!** Best not to make a spiral from cat's food, it won't last long when there is a hungry cat about!!!

You could leave your spiral for others to find, or you could take a picture of it to share with your friends!
